

Towards Safer Therapies

In the heart of the science and business location Heidelberg, GeneWerk GmbH has found ideal conditions for steady growth. For six years, the company with its experienced and motivated staff has been offering NGS-based molecular biological analysis services, especially for companies in the pharmaceutical, life sciences and biotechnology industries. The aim is to advance the development of innovative therapies such as gene and immunotherapies through comprehensive safety analyses. Safe and effective therapies are thus within reach for many diseases.

In addition to pure research contracts and preclinical testing, the analyses also include examinations of patient material as part of clinical trials. In particular, the guidelines of the European Medicines Agency (EMA) and the U.S. Food and Drug Administration (FDA) must be observed.

With the help of the investor Ampersand Capital Partners, GeneWerk will push ahead with its expansion in the USA in order to better serve the rapidly growing American market.

We are looking for a dedicated individual to join a great team as soon as possible:

Quality Manager (GCP/GLP) (m/f/d)

Spectrum of Tasks

- Shared responsibility for the expansion and future (partial) accreditation of the company's quality management system;
- Validation of computerised systems and cloud-based data analysis pipelines;
- Active participation in the quality assurance of ongoing laboratory and data analysis processes;
- Accompanying method validations;
- Communicating with national and international pharmaceutical and life science customers/auditors;
- Conducting and following up on internal and external audits, supplier qualification;
- Participating in training courses and quality-related marketing activities.

What We Offer (i.a.)

- Fixed salary; 30 days annual vacation;
- Flat hierarchies; pleasant working atmosphere;
- Working via home office or mobile office;
- Professional and personal development opportunities.

Requirements

- Completed studies in natural sciences / engineering or IT sciences or corresponding QM training;
- Several years of experience in quality management and/or quality assurance;
- Knowledge of current international regulations for GCP/GLP (CLIA desirable);
- Experience with accreditation/certification procedures in the GLP area or in the DIN-EN-ISO area desirable;
- Focus on IT quality management or experience in validation/qualification of IT based systems desirable;
- Very good knowledge of German and English, both written and spoken, required;
- Strong quality awareness;
- Confident appearance and proactive, dedicated work ethic;
- Ability to work in a team, organisational skills and flexibility in the face of changing requirements.
